PAINT SEALANT with PTFE

18 months Warranty Shine! No more waxing! Wash & see the difference

The Choice Of Champions The Choice Of Champions The Choice Of Champions The Choice Of Champions

QMI is the worldwide leader in PTFE (Teflon) cutting edge technology. To name a few, QMI Ultra Coat is used, and some endorsed by hydroplane, aircraft, boats, vessels, formula cars racing cars, the prestigious American sports car Corvette Chevrolet, Pontiac, GM, Japan Toyota, Lexus, Mazda, Kawasaki and the even the Florida Disneyland Monorail!

With complete treatment from QMI Paint Sealant, the world famous and world's fastest hydroplane "Miss Budweiser" always shines. Even the harsh sun and sea environment this 18-time World Champion calls home is no match for the superior protection delivered against fading and UV rays by QMI's exceptional "Ultra Coat" Teflon-based Paint Sealant!

More than a Grooming !!

No more waxing!

Tested and Proven Worldwide. We have various exclusive QMI® Car Grooming Centre in Singapore.

QMI® USA, the Worldwide (100 countries) Leader in PTFE (Teflon®) cutting edge technology. You can have coating that is guaranteed to last longer. Most Sealant in the market are silicones and wax bases that breaks down easily by heat and water. QMI® formulated Teflon® is highly durable, withstanding high temperature and does not soluble with water. It gives the glossy mirror reflection that looks like showroom luxury car. Only QMI® has more than 30 years of PTFE (Teflon) research technology (we are an integral business associate with DUPONT USA)

QMI® PAINT SEALANT WET/TEFLON®

MORE THAN JUST A WAX

Chemically inert PTFE resins protect surface from corrosives like road salt, acid, insects, oxidation and fading.

QMI® paint sealant with Teflon® gives the ultimate in a hard, slick, long lasting shine.

Before and After

Brought to you by Hosanna QMI Car Grooming

A MUST FOR ALL CAR!!

QMI® paint sealant (with teflon®)

QMI® Paint Sealant is designed to seal professionally painted surfaces with a hard, mirror-like finish shine, protecting painted surfaces from oxidation (paintwork fading), ultraviolet rays and dirt. Teflon® is chemically inert to all other known chemicals, therefore providing protection from corrosives, salts and insects, and never turn gray and yellow when exposed to sunlight. (Teflon is a registered of E. I. Dupont de-Nemours & Co. Inc. and is part of the PTFE family.)

Benefits

- Ultimate Shine (mirror-like finish)
- Ultimate Protection Coating against birds dropping marks and water spots which are acidic.
- QMI® Paint Sealant can withstand acidic climate condition when fully coated.
- Extreme durability (does not breakdown easily)
- Sun Shield against UV rays
- Easy maintenance, just wash with water! Saves time and money
